WEAVER SNAP DAVITS

For 8' & 10' Walker Bay Boats

Mounting Instructions

Step 1 - Unbolt the seat from the Walker Bay Dinghy, leave the seat there.

Step 2 - Connect the center bar together as it is in the picture.

Step 3 - Match the pieces to the picture below.

Step 4 - Rotate the center bar for port or starboard side mount and for the three hole the first two are for dinghies that have tubes and the back two will be used if you have no tubes and bolt them down with the bolts supplied.

Step 5 - Bolt the davits (RS110) on the swim Platform to match the hook ups on the Walker Bay Dinghy.
